
IMMEDIATE OPENING – FULL TIME POSITION
• SCIENTIST •

Diversified Technologies, Inc. is the developer and marketer of the PowerMod™ line of high power modulators, DC power supplies and control systems. Selected twice by R&D Magazine as one of the 100 most significant products of the year, PowerMod™ systems are available in a wide range of voltage, current, and performance configurations. DTI also applies its broad base in engineering and physics to consulting on specific engineering and development requirements.

Please take a few moments to browse our site and learn about our unique technology, and how our products are being used in high power applications world wide: www.divtecs.com

DTI is seeking a **Scientist** to develop creative and high-tech solutions to novel customer challenges working with a multi-disciplinary team of scientist and engineers. Your role will include the enhancement and amplification our advanced technologies, products and our line of PowerMOD™ power supplies and modulators.

Work will encompass many of the following: transistor RF systems, accelerator RF systems, switching power electronics, high voltage solid state systems. Experience in these specific fields is not necessary but is desirable. Experience in the wide range of commercial and military project requirements is beneficial in this work.

Responsibilities:

Scientist

- Work with DTI engineering and technical staff on multiple projects to find creative and high-tech solutions to novel customer challenges.
- Facilitate design decisions and oversee solutions including managing projects to ensure designs are implemented, fabricated, tested, documented and delivered.
- Transition technologies from Research & Development into products.

Requirements:

Scientist

- Must have excellent analytical and conceptual skills.
- Ability to document designs as well as bring designs to fruition and market place.
- Experience managing projects to assure design decisions are made and production is implemented to achieve deliverables to our Clients, government or private.
- Excellent interpersonal and relationship skills to successfully oversee electrical, mechanical and tech staff involved in achieving final deliverable.
- US Citizen or permanent resident

Education: PhD

Experience: 10-15 years minimum

Travel: Occasional travel to customer sites required (domestic and foreign)

Excellent benefit program:

Insurance: Health, dental, life, disability, 401K. Leave & Holidays: paid holidays, sick and 15 days of vacation beginning the first year.

DTI is an equal opportunity employer and considers qualified applicants for employment without regard to race, gender, age, color, religion, disability, veterans status, sexual orientation, or any other protected class.
